

## Special Edition

### Open Your Hearts to Our Special Needs Dogs!

Often SCMR finds dogs who need help but have chronic conditions or physical limitations that can't be healed. And we take them in anyway, hoping there is someone with a heart and home big enough to help the special needs dog.

Dogs such as Hank, Blanche, General Colin Powell, Jonathin and Daisy Duke often have simple requirements. Yes, a dog like Hank needs special medication - he has Pulmonary Fibrosis. That means he can't run and jump and needs a quiet home. But he does have a lot of time left to be someone's tv buddy!

Blanche and General Powel are blind. Other than that, they are healthy and require no special meds. Little Daisy Duke is a roly-poly fourteen year old with Cushings. And Jonathin is a cute old-timer with hearing loss. As long as they remain in foster homes, there are dogs in need for whom we have no space. Ideally we want to find a loving home for each of these dogs. And the longer they are foster dogs, the more they cost SCMR.

***Please open your hearts to these dogs...if not adoption, then please help us support these dogs with a tax deductible donation!***

Funds are running low. Donations and new foster homes are in desperate need. Thank you in advance for your generosity! 🐾
